

産業科学研究所—韓国原子力科学研究所先端放射線技術研究所

連携ラボ 2015 第1回ワークショップ

2015年1月26日 1300-2030 量子ビーム科学研究施設セミナー室

1300-1330 Tetsuro Majima, Opening address

Yoshihide Honda, "Introduction of Research Laboratory of Quantum Beam Science, SANKEN"

1330-1430 Invited talk: Byungnam Kim, Senior Researcher, Korea Atomic Energy Research Institute

"Radiation induced synthesis of polymer nano gel under several kinds of irradiation conditions"

1430-1530 M. Fujitsuka and T. Majima, "Radiation Chemistry of Nanomaterials"

1530-1630 K. Kobayashi, "Pulse Radiolysis in Biological System"

1630-1730 K. Kawase, "Introduction of the L-band linac for pulse radiolysis" experiments

1730-1830 T. Kondoh, "Development of the femtosecond pulse radiolysis system for radiation chemistry"

1830-2030 Open discussion

2030 Tetsuro Majima, Closing remarks
