

Faculty Position in SANKEN, The University of Osaka

Outline	<p>Understanding the meaning of videos and images is a central research topic in the fields of computer vision, pattern recognition, machine learning, and artificial intelligence. Visual understanding has made remarkable progress due to advances in deep learning technologies. Furthermore, technologies that combine videos/images with natural language have become increasingly important as a foundation for evaluating and applying semantic understanding. On the other hand, achieving more advanced semantic understanding remains an open issue, which involves uncovering the mechanisms of deep learning models, and requires further fundamental research.</p> <p>The Department of Intelligent Media addresses various topics related to semantic understanding of videos and images, aiming to both advance current AI technologies and explore foundational research for the next generation. As Intelligent Media Systems Laboratory, a collaborative laboratory within the Graduate School of Information Science and Technology, The University of Osaka, we also contribute to the education and research guidance of graduate students. The successful applicant will be responsible for not only conducting research but also advising undergraduate and graduate students, as well as teaching at the undergraduate and graduate levels.</p>
